Discussion Board/ Week 4

Review the assignment “Reflection Paper” and begin brainstorming the various events, exhibits, or experiences you could contemplate for this assignment. In this week’s discussion describe three experiences you could use for the assignment. Evaluate them all to determine which would give you a different perspective of a culture other than your own. Then, give at least one reference for each experience that will help you determine which to attend and describe what you might learn.

- Three possible experiences
- Evaluation on how they are different from you
- Reference or support that describes what you might learn
